EXPERIENCE

Green Park Real Estate LLC

Jan. 2026 – Jun. 2026

Investment Management Intern

Dubai, UAE

- Generated qualified buyer and investor leads through cold calling, referrals, digital marketing campaigns, and networking, contributing to a consistent sales pipeline.
- Assisted investment consultants in advising clients on residential and commercial real estate opportunities by evaluating budgets, ROI, rental yields, and long-term investment potential.
- Conducted property presentations, site visits, and client meetings while showcasing project features, payment plans, and investment benefits.
- Managed lead qualification, client follow-ups, CRM updates, documentation, and coordinated with internal teams throughout the sales process.
- Performed market research and comparative market analysis (CMA) by tracking property prices, developer launches, and emerging investment trends across Dubai.
- Built strong relationships with prospective buyers and investors through regular communication, personalized consultation, and excellent customer service.
- Collaborated with developers, mortgage advisors, and legal teams to ensure smooth transaction execution and timely client onboarding.

Stepping Cloud

Oct. 2025 – Jan. 2026

AI Products and Backend Developer

Delhi, India

- Developed AI agents that reduced manual lead generation effort by 80%.
- Built automated lead scraping pipelines integrating multiple online data sources.
- Designed form-based automation tools enabling non-technical users to generate leads easily.
- Contributed to real-world Agentic AI solutions for client use cases.
- Worked on email automation workflows to streamline outreach and follow-up processes.
- Automated lead qualification and enrichment workflows, improving the quality and accuracy of sales prospect data.
- Integrated CRM systems and third-party APIs to automate lead management and customer engagement processes.
- Performed market research and competitor analysis to identify potential business opportunities and target customer segments.
- Collaborated with sales and business development teams to optimize lead generation strategies and improve client acquisition.
- Built dashboards and automated reporting solutions to monitor lead performance, campaign effectiveness, and business metrics.

PROJECTS

JPMorgan Transaction Processing Microservice ([GitHub](#))

- Built a Spring Boot microservice integrating Apache Kafka to process high-volume transaction messages
- Implemented transaction validation and persistence using Spring Data JPA with an H2 SQL database
- Integrated an external REST Incentive API and processed responses within transactional workflows
- Developed a REST endpoint to query user balances and return JSON responses via a Spring controller

Chatbot Development

- Built an interactive chatbot using Python, ChatGPT API, and Streamlit
- Delivered conversational AI with a user-friendly interface
- Implemented API integration and backend logic to handle user requests, responses, and error handling in a scalable manner

Book Recommendation System ([GitHub](#))

- Built a book recommendation system using collaborative filtering
- Provided personalized suggestions based on user interaction data

Face Recognition Attendance System ([GitHub](#)) ([Live Demo](#))

- Developed an automated attendance system using Python and OpenCV for real-time face detection and recognition
- Implemented backend logic to record and manage attendance data in a structured database

Real Estate Website with Analytical Dashboard

- Developed a real estate investment platform to analyze property prices, ROI, rental yields, and investment trends
- Built an interactive dashboard to visualize market insights and support property investment decisions.

AI Lead Generation & Automation Agent ([GitHub](#))

- Developed an AI-agent-based system to automate lead scraping and enrichment from multiple online sources
- Reduced manual effort and lead generation time through a form-driven automation workflow
- Enabled scalable and efficient lead generation pipelines for business and sales use cases

EDUCATION

Jamia Hamdard (Deemed University, NAAC A+)

2023 – 2026

B.Tech in Computer Science and Engineering (Lateral Entry)

CGPA: 7.5 / 10

Jamia Millia Islamia (JMI Polytechnic)

2020 – 2023

Diploma in Computer Science

CGPA: 8.0 / 10

Jamia Senior Secondary School

2019

Class X

CGPA: 7.4 / 10
